Coffee is a constant in our everyday lives. Any time, any place; coffee is the catalyst that brings people together, to enjoy and to share. There are countless ways to prepare coffee and an infinite variety of coffee recipes – it’s possible to say that there’s a particular coffee out there for every lover of the world’s favourite beverage.

Coffee drinking was first discovered by Ethiopian monks hundreds of years ago, but it’s never been more popular: coffee brewing and preparation methods have evolved constantly to meet changing consumer tastes.

That’s why every Vitro development is focussed on extracting the best possible coffee according to contemporary tastes, to provide the consumer with the perfect coffee experience.
The Vitro range of professional hot beverage machines is designed with attention to every detail. After investigating the current design trends in the coffee industry and finding out what consumers and operators expect from an automatic coffee machine, we believe we’ve created a machine that combines our experience as manufacturers with a contemporary aesthetic and timeless design.

Every aspect of Vitro enhances the user experience, the culmination of which sets the range apart from other beverage systems. Thanks to our uncompromising focus on continuous development and innovation, we’ve fused our growing knowledge with the demands of a fast-changing world.

We’ve focused on what’s most important: offering the best machine and the best product; taking care of the smallest details and giving unmistakable personality and identity to the whole Vitro range.
Vitro’s smoked glass door and touch screen user interface elegantly displays a comprehensive menu. It’s a state of the art combination that will complement any location.

The user display, together with the cup positioning lighting system and intuitive tray position, guides the user through a simple and pleasing experience, every time they order a drink.

The customisable mood lighting installed along the door can easily be changed to match any colour scheme. The intelligent lighting system for the dispensing area and the beverage locator can also be changed to suit its environment.
The Vitro Espresso system tamps and brews freshly ground coffee with 9 bar pressure. This is the accepted pressure to achieve the best results, delivering the ideal crema and body.

Coffee is brewed at low pressure, by extracting hot water through the coffee. Subsequently, the coffee is agitated to obtain the desired crema.

The Vitro optimised soluble technology ensures that every soluble product is mixed at the ideal speed. The Vitro mixing bowl is developed to obtain a crema from soluble coffee, whereas the soluble milk system assures that milk is served with the desired consistency for every recipe.
**FEATURES**

**TOUCH SELECTION**
Selections on Vitro machines are made by a simple touch, thanks to the integrated capacitive selection panel situated behind the machine’s smoked glass.

**LED**
LED lighting provides a stylish look to the machines whilst illuminating the dispensing area.

**USB CONNECTION**
Machine program and settings can be downloaded and uploaded via a USB key (excludes Vitro S5).

**REMOVABLE TRAY**
Enables liquid waste removal without opening the machine door, for increased efficiency.

**HOT WATER SPOUT**
The separate hot water spout avoids cross contamination between coffee and other soluable products.

**MEDIA SCREEN**
A 10.1 inch HD Media player for inspirational or promotional videos is included as an option. Content can be easily uploaded via USB port or HDMI feed. The screen includes a remote control for programming. An additional RSS Airgoo feed can be integrated.
The Vitro S ensures you can provide your customers the drinks they want just as they like them. The core features of Vitro S are its speed and reliability, so you can relax while Vitro provides your customers with a pleasant coffee experience.

**VITRO S HAS ALL THE DRINK TECHNOLOGIES TO CHOOSE FROM**

The Vitro S series is the most versatile of the range when you’re talking about hot beverage drink technology. It represents the current diversity of coffee/tea serving and preparation. You can choose the technology that matches the tastes of all your customers. So everyone can find the drink they’re looking for.

**STRAIGHT FORWARD SELECTION**

The contemporary look of the machine will grab the attention of your customers. Furthermore, the elegant and intuitive selection panel will tempt your customers to buy. In a matter of seconds, they’ll have the drink they really want to drink in their hands.

**DURABLE**

The Vitro S range is made for high demand locations where machine limits are tested. You can face any peak service period with complete peace of mind as every single drink delivers exactly what your customers want.

**MAKE YOUR CUSTOMERS HAPPY**

Cater for your customers’ needs with the drink they desire, wherever and whenever they want it. Vitro S machines are your automatic Barista – capable of serving your customers the drinks they want 24/7.

**FIRST IMPRESSIONS**

Making a good first impression helps you earn your customers’ trust and loyalty. Every machine in the Vitro S range adds style to any location. Furthermore, the Vitro S4 machine can feature, as an option, a 10.1-inch media screen to display promotional or inspirational videos that will engage with any customer.

**A MACHINE FOR EVERY SITUATION**

Every model in the Vitro range has been modified to fulfil the different requirements of each and every location. The Vitro S2’s compact footprint makes it ideal for offices or catering services where space is at a premium. The Vitro S4 Instant can provide jugs of coffee for those moments of high demand, such as meetings and conference break-outs. The Vitro S5 capacity and security accessories makes it ideal for unattended, high-demand locations.

**QUICKLY READY TO SERVE AGAIN**

Time means money! The Vitro S range makes cleaning and maintenance quick and easy so you can get your machines back to service to serve your customers.
VITRO S2 INSTANT

Is a quick and compact soluble machine that features two coffees, chocolate and milk as standard, together with the ability to substitute sugar or other soluble products.

**Technical features**
- 5.3 liters Atmospheric Boiler capacity (Instant product)
- 2.80 kW Max. power Atmospheric Boiler
- 0.8 bar Min. / 10 bar Max. Water Pressure

**Machine capacity**
- Sugar: 1500g / 250 cups
- Instant Coffee: 425g / 265 cups
- Powdered Milk: 1200g / 300 cups
- Chocolate: 1200g / 60 cups

**Productivity per hour**
- Hot water per hour: 45 liters
- Espresso: 240 cups.
- Soluble drink: 240 cups.
- Cappuccino: 80 cups.

**Machine**
- 32 kg Machine
- 230 Vac / 16A / 3Kw / 50Hz
- Eco mode: 2.9 kW nominal

**Dimensions**
- 320 mm X 450 mm X 670 mm
VITRO S3 FRESH BREW TEA

Incorporates a paperless fresh leaf tea brewing system, which adds freshly prepared leaf tea based drinks to the Vitro menu.

Technical features
- 2.4 liters Atmospheric Boiler capacity (Instant product)
- 2.80 kW Max. power Atmospheric Boiler
- 0.8 bar Min. / 10 bar Max. Water Pressure

Machine capacity
- Leaf Tea: 1000g / 400 cups
- Instant Coffee: 425g / 265 cups
- Powdered Milk: 1200g / 300 cups
- Chocolate: 1200g / 60 cups
- Sugar: 1500g / 250 cups
- Coffee Cakes: 65

Productivity per hour
- Soluble drink: 240 cups
- Cappuccinos: 80 cups

Machine
- 35 kg
- 230 Vac / 12A / 3Kw / 50Hz
- Eco mode: 2.9kw nominal
